WHO WE ARE

Thurman Station Association is a growing organization of businesses, organizations and individuals. It seeks to function much like a chamber of commerce, raising the profile of the communities surrounding the station, and helping to create a climate in which new business is encouraged, and established businesses can prosper and grow.

We strive to help create a healthy economic environment by

- Keeping abreast of evolving trends in tourism and trade.
- Being sensitive to the particular needs of businesses and the character of our communities
- Building marketing opportunities and activities with the train and with tourism agencies in our area
- Fostering cooperation and collaboration among businesses and organizations in the area.

We invite you to read more, ask questions, attend our programs and join TSA.
